

# GENERIC HOLO PATCH

## Security Ribbons

The generic holographic patch ribbons allow the application of a hologram, which is an optical variable design, on your card in a form of a transparent patch.

Thanks to these ribbons, you add security and durability to your cards. A hologram is not possible to duplicate and simplifies the examination process.

### ADVANTAGES

More security: your cards are protected against forgeries and falsification.

Extended durability for long-life cards.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you quality and reliability.

## CUSTOM HOLOGRAM SOLUTION

Generic holograms are not recommended for high security card programs. Adding security to your badge can require a custom and unique hologram design. In addition to this generic offer, Evolis proposes Custom Hologram Solutions. Managed as a special project at Evolis, custom hologram films will be designed according to your company requirements. This is the guarantee that it will not be sold by anyone else.
